

THERE'S ALWAYS A STORY TO BE TOLD

JOE GEOFFREY

VOICE TALENT

ALL ABOUT JOE'S VOICE

A keen ability to interpret the script... to connect with the writer's intent.

A natural delivery, in character or as an authentic narrator, ensures your listener hears what you have to say.

Rich, trustworthy, calming are words that have been used to describe what you'll hear in my delivery.

Especially well suited for narrative projects - historical, biographical, Americana - and scripts requiring warmth and sincere importance.

A MESSAGE FROM JOE

As a business owner, I understand holding-the-line on your bottom line. In voice over that means availability, fast turn-around, and no surprises along the way.

If you're casting to entertain or educate, motivate or inspire, train or inform my voice can be that of The Trail Boss, a fatherly figure, an encouraging professor, or a big, warm bear hug.

Most importantly, however, is delivering the end result - satisfying listening.
